[I would prefer not to  
15-1 live downwind from a plutonium  
XI(5) incinerator. work with the state  
governments so the waste  
can be transported across state  
lines to the dugway site  
or coole sites in Utah.  
Don't waste tax-payer dollars  
on something which already  
exists (after upgrading)  
Find an alternative.]
